REQUEST FOR CORRECTED FILING RECEIPT

Office of Initial Patent Examinations
Filing Receipt Correction
United States Patent and Trademark Office
Alexandria, VA 22313

Sir:

An error appears in the corrected Filing Receipt issued for the above-identified application on October 27, 2004, in that the parent application – U.S. Serial No. 10/176,126 filed 6/19/2002 – has been omitted. Submitted herewith is a copy of the corrected Filing Receipt with corrections noted thereon.

Also transmitted with this request is a copy of Applicant's prior request of October 19, 2004, as well as a copy of the originally-issued filing receipt with corrections noted thereon. The filing receipt mailed 7/16/04 omitted the earliest filed parent application (09/041,327), but correctly listed the immediate parent of the present application (10/176,126). The corrected filing receipt mailed 10/27/04 corrected the earlier error, but apparently inadvertently deleted the immediate parent application 10/176,126.

In view of the foregoing and the attached documentation, a corrected Filing Receipt reflecting the correct priority data for this application is respectfully requested.

Respectfully submitted,

Nada Jain

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15****GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(j). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 5001) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

Sir:

An error appears in the official Filing Receipt for the above-identified application in that the priority data (US Appl. Ser. No. 09/041,327) as claimed by applicants (on Application Data Sheet and in the first paragraph of the specification) was not included.

The filing receipt states that the above priority claim was not found to be consistent with the PTO records. PTO records, and the present Filing Receipt, should be corrected to reflect that the PTO accepted (in the parent application Ser. No. 09/176,126) an intentionally delayed claim for the benefit of priority to the '327 application.

Transmitted with this Request is a copy of a Petition and Amendment filed in Application Serial No. 09/176,126, the parent of the present application. Also transmitted is a copy of the Patent Office Response granting such Petition to correct the priority data. Accordingly, the priority data as originally claimed and as identified in both the Specification and the Application Data Sheet as filed are correct, and should be consistent with the PTO records.

A copy of the filing receipt for this application on which the requested corrections are noted is submitted herewith.
